SAN JOAQUIN FILTER RECYCLING, 14287 E. MANNING AVENUE,  
PARLIER, CALIFORNIA, EPA ID No. CAL 000 102 751**

In accordance with the requirements of California Code of Regulations, title 22, section 66271.14, the Department of Toxic Substances Control (DTSC) is issuing this Notice of Final Hazardous Waste Facility Permit Decision (Notice) for the following facility:

San Joaquin Filter Recycling  
14287 E. Manning Avenue  
Parlier, California 93648  
EPA ID No. CAL 000 102 751

This Final Standardized Hazardous Waste Facility Permit authorizes San Joaquin Filter Recycling to continue to store and transfer used oil, waste antifreeze, oily water, and solid wastes contaminated with oil at its facility located at 14287 E. Manning Avenue in Parlier, California. On July 15, 2008, DTSC published a public notice in the Fresno Bee (an English language newspaper) and the Vida En El Valle (a Wednesday only Spanish language newspaper) on July 16, 2008 to announce the start of a 45-day public comment period to solicit comments on the Draft Permit and the Notice of Exemption. The public comment period ended on August 28, 2008. Public comments were received by electronic mail.

DTSC has prepared a Response to the Comments (RTC) document and made some changes to the Draft Permit. The RTC document and the DTSC memorandum to file listing the changes from the draft to the final Permit are available for formal public review at the repositories listed at the end of this Notice.

The Final Standardized Hazardous Waste Facility Permit, Series C, becomes effective on January 26, 2009 unless a review is requested pursuant to the California Code of Regulations, title 22, section 66271.18. Any person who filed

comments on the draft permit or participated in the public hearing may petition DTSC to review any condition of the permit decision. Any person who failed to file comments on the draft permit may only petition for an administrative review with regards to the changes made from the draft to the final permit. The petition shall include a statement of the reasons supporting that review, including a demonstration that any issues being raised were raised during the public comment period to the extent required by the regulations and when appropriate, a showing that the condition in question is based on:

1. A finding of fact or conclusion of law which is clearly erroneous, or
2. An exercise of discretion or an important policy consideration which DTSC should, in its discretion, review.

A petition must be postmarked no later than January 26, 2009, and must be submitted to:
